Write and test the following program:

Write and test the following program:

- What groups of minerals and other useful substances can be useful for the colonizers of Mars?
- Why can minerals found on Mars be used?
- What research has been done to determine the presence of minerals on Mars?
- What sensor was used to determine the type of mineral?
- What did you use to save data about the minerals you found?
- What mineral dominates in the study area?
